## OBJECTIVE

---

Computer Science student with a foundation in programming and ability of problem-solving skills. Seeking an opportunity to apply technical skills and learn emerging technologies in a new environment. Passionate about developing efficient and scalable solutions along with data visualization tools while enhancing my knowledge. Eager to contribute to organization through teamwork and new innovations.

## TECHNICAL SKILLS

---

- Languages: Java, Python, C, SQL
- Technologies: HTML, CSS, Django, JavaScript, Flask
- Tools: Tableau, GitHub

## EDUCATION

---

- Engineering-Pursuing 3<sup>rd</sup> year Computer Science and Engineering in SJBIT-CGPA:9.08 (Present)
- Pre-University-Completed PUC in Kumaran's College in the year 2023 with 95.3%.
- Schooling-Completed 10<sup>th</sup> in Apollo Convent in the year 2021 with 94.2%.

## PROJECTS

---

### ➤ Ott Platform Performance Dashboard:

Implemented a tableau dashboard to analyze OTT viewership trends, content genres and user preferences for data-driven insights.

### ➤ Smart Health Monitor for Health Care:

Created an IoT-based health monitoring system using motion sensors to detect elderly falls and send alert notifications to care takers.

### ➤ Personal Portfolio Website:

Developed a responsive personal portfolio website to showcase skills, projects, and achievements and implemented clean user interface.

### ➤ Weather Dashboard:

Built a weather application that fetches real-time data using API integration and to display temperature, humidity, and weather.
